### About This Content

The Red Deck was gross, but you bought it anyway. And now you're back for more? You disgust us, and we love you. Red Deck 2 has over 80 more horribly offensive cards that you definitely shouldn't bring home to your family. To make things even more awkward, Red Deck 2 comes complete with its own set of equally offensive Location (Blue) and Scenario (Purple) cards.

The Red Deck 2 expansion deck comes complete with new Achievements, Titles, and Art to unlock!

Once added to **SUPERFIGHT**, The Red Deck 2 will be added to your Collection and can be selected when joining fights. Please note that due to the mature content of this deck, you will need to enable its use within the **SUPERFIGHT** settings menu.

superfight red deck 2. superfight red deck 2 card list

Complete Garbage, Three players required to play, otherwise you can only play the quick vote. This quickly gets boring and value is just not there. Wanted to like it but went to play a buddy and couldn't because we didn't have a third player. Maybe they need to have a AI option. Not sure but until this game gets a big following or finds a weigh to not require at least three people. Then don't bother.. I'll be honest, only bought it for Christian Grey.
